

I always listen to KLOve, especially when my son is around. It is such a relief to be able to listen and not have to worry about my son hearing inappropriate comments or foul language. I also enjoy the variety of music that is played. I think the community bennifits from this station because they can enjoy the purity of the songs and they too can listen with their children and show them that there are things in thes world that are not corrupt. The station also gives the Christian musicians an opportunity to get their music out there and gives the public an opportunity to hear it. The public can listen and find new and old groups they like and in return go purchase their CDs (which supports the musicians so they can continue to make uplifting music for us). I truly enjoy listening to KLove and would be greatly dissapionted if it was taken off the air.
